

MONSTER ROLL CAGE

NEXT GENERATION INTERACTIVE SIMULATOR

Monster Roll Cage® (MRC) is an unparalleled, multi-sensory experience of unrestrained racing and real monster truck feel for people of all ages. Monster Roll Cage®, featuring The Ride works®'s X-Vector motion base and high-end graphics system, throws two players into a virtual monster truck competition.

With the X-Vector simulation platform, which features 360° action, guests will feel the acceleration and terrain in the vehicle as they perform monster loop & roll stunts and try to avoid crashing. With Driver & Power Position controls, 2 players team up to experience hair-raising and body flipping action and race for the finish while fighting off the computer-controlled monster truck opponents. The High Definition Projection System delivers a crisp, clear and realistic "out the windshield" display second to none.

The powerful Surround Sound System will rock the riders with original music and explosive fx. VR driving simulation will never be the same.

**360° OF CONTINUOUS
ROTATION** on the pitch & roll axis.

**HIGH-DEF Projection System
and SURROUND SOUND**

Optional "CAREER SYSTEM"
which allows riders build up points
to unlock up to 6 Bonus Trucks and
6 Bonus Tracks.
