

## XSpeed Motion Platform:

Plunge and heave in our "wildest" motion-base platform yet! Fully enclosed, this 2-seater, 3 axes (3 degrees of freedom (DOF)) hydraulically powered motion simulator platform, combines big, dynamic motion capabilities with a compact envelope and quiet operation. The XSpeed is designed by simulator experts to deliver physiologically accurate motion while creating a fun, close-knit player interaction in a safe and secure environment. Multiple Wild Earth™ Adventure Experiences are compatible on the XSpeed; please refer to the chart below for experiences available. Standard shows come with English and Spanish modes. Additional languages available, call for pricing.

**TIP:** Multiple units' set up in a 'caravan' increases throughput and revenue and looks like a *rea*/safari adventure!

- Loading platform and safety fencing are not included in the base package.

### Loading Platform and Safety Fencing

Used only for XSpeed and MRC: XVector Motion Platforms. A loading platform and safety fencing is required to load guests in and out of the ride and to keep guests away from motion 'envelope'. Standard or custom-themed options available.

### **\*Additional Options Available for Purchase:**

#### **E-mail Terminal**

A ruggedized e-mail terminal stand combined with your Internet access can offer your guests a long-lasting educational resource complete with their own personalized keepsakes of their experience at your facility. Email terminal access allows your guests to retrieve, play, and share their Wild Earth™ Safari photos online on the Wild Earth™ website, play games, obtain educational messaging, view their personal ride photos and find links to your facility website. Use this feature to capture guest e-mail addresses (opt-in). All customer information is stored in a SQL database to be used for marketing promotions, etc. Twelve (12) months free Wild Earth™ website service is included in price. Additional fees of \$835/mo. apply thereafter for site support and database maintenance. Internet connection is required but not provided. Available for Wild Earth™ Safari Series.

#### **High-Speed Article Printer**

Large, efficient, high-speed color printer is available to provide on-demand printouts of the Wild Earth™ material for your guests. The printer(s) are sized to accommodate peak throughput, reliability and redundancy (where applicable), with a low cost per print. Custom article layouts can be provided\*. Custom-designed thematic crating can be included to conceal printer\*. Service on printer is not included.

#### **Article Printer**

Small, high-resolution printer prints Wild Earth™ materials on-demand, but with limited paper supply and ink reservoirs. Lower initial cost, but greater cost per page. Standard themed crating included. Custom article layouts can be provided\*. Custom-designed thematic crating can be purchased to conceal printer\*.

#### **External "Teaser" Monitor**

Entice more visitors to queue up for the experience and allows friends and family to view the riders expressions and experience within the Safari Cabin on a large external monitor. Displayed are both the "out the window" view and the CCTV ride video in PIP (picture in picture) format.

#### **Weatherized Package**

Wild Earth™ platforms can be installed outdoors under proper "roof" structures. Roof and specially designed electrical enclosures are added to the system to prevent corrosion and adverse effects of the elements. Environmental conditioning systems can also be added to improve passenger comfort. Not available on all packages or in all locations. Pricing will vary depending on configuration.

#### **Thematic Crating**

The Ride Works can provide thematic crating for the XSpeed Hydraulic Pump Skid and Control Console Cabinet if so desired. Standard or custom-themed options available.

#### **Graphic Package**

Themed posters used to brand the attraction and entice guests by introducing the story and experience. Also includes informational posters to aid smooth throughput by explaining guest interface (camera and driving controls) to guests prior to entry.

#### **Installation and Training**

Will vary with platform and location of installation.

#### **Preventative Maintenance Contracts**

Keep your attraction running at peak performance and minimize downtime and unexpected service costs. The Ride Works' trained technicians will make multiple scheduled visits throughout the year to help protect your investment.

**\* Indicates additional cost. Call for pricing.**
